Dashboards are a powerful forensic tool to create searches and view search results based on data available through a search. A new dashboard platform is available that allows you to analyze metric and log data on the same dashboard, in a streamlined user experience.

Watch our video "Building Dashboards" here.

• Get Started with Dashboards and Panels

Dashboards are a powerful monitoring tool. If you need some inspiration, you might want to take a look at the Apps in Sumo Logic to see how the experts have used all of the available options.

- Create a Dashboard
- Add a Dashboard Link
- Add a Text Panel
- Add Links to Text Panels

Media, iframe, embed and object tags are not supported inside of a PDF.
Dashboard Optimization
- Delete a Dashboard
- Launch a Search from a Data Panel
- Markdown Syntax
- Move a Panel in a Dashboard
- Pause a Panel
- Resize a Panel
